(Secondary caregiver) What are your expectations?

What concerns/reservations do you have with respect to owning a service dog?_____

Is there anything we have not asked that you feel is important for us to know about you, your special needs child, or your family? __yes__no

Before you continue with the final application it's important that you understand the time and investment required. Having an RFI service dog will require a commitment by both parents to provide more than food and shelter. Prior to receiving the dog RFI will require a 10 day orientation class that must be attended.

Will this be possible:

Yes ___ No ___

Waverly, IA _____ or Sedalia, MO _____

The first 3 months after placement is a time of major adjustment for the dog, you, your child and the rest of the family, and as such, RFI wants to be certain that the family is fully prepared for the personal investment and hard work required. It's fun and exciting too, but there is much to be done initially in preparation and during the first few months after the placement.

Will you be available for follow-up meetings?

Yes ___ No ___

Waverly, IA _____ or Sedalia, MO _____

As a 501c3 non-profit organization RFI does not require any cost for receiving a service dog, thus our production is directly related to the contributions that have been received. On behalf of each accepted applicant, RFI will build a recipient donor page. This will have a goal of \$7500 and be placed on the RFI website as a way to encourage donations to the organization. RFI appreciates any involvement in achieving this goal, but does not deny or place dogs according to the amount raised. Many contributions are given to RFI through this platform, and are all placed within RFI's general program services contributions account. Donations are not specifically allocated to any specific recipient or do they constitute a purchase of a dog.

Often the expectation of the parent of a child with autism seeking a service dog is that the service dog will perform immediate miracles, and being a uniquely trained dog means the dog is fundamentally different than other dogs, a sort of "robot" dog that responds the instant you give a command; never makes a mistake; never sulks or barks, and never has an off day. Highly trained dogs are still dogs that have basic needs that must be met to be well-balanced and perform consistently. A well balanced dog is calm, friendly, and content. To a great extent a dog's mood, performance and quality of companionship depends on his/her environment, the amount of exercise, discipline and affection given by the new owner.

I understand and accept the responsibility, financial investment, and care required of owning a (service) dog. All family members will respect the basic needs of the dog for proper diet, shelter, veterinary care, exercise, attention, and rest. If, at any time, I, or members of my immediate family, cannot meet the requirements of proper care, I understand the service dog is to be returned to Retrieving Freedom, Inc. I further agree to follow RFI instruction regarding any required reading, training, orientation classes and the transition and integration process of the service dog into our home.

Signed _____ Date _____

Full name of primary child caregiver/ dog handler

Primary caregiver name: _____

Primary caregiver address: _____

City _____ State _____ Zip Code _____

Phone: _____ Email: _____

Child's Name _____ DOB: _____

Step Two:

Primary Caregiver: _____
(Print)

Secondary Caregiver: _____
(Print)

Recipient Child: _____
(Print)

1) Diagnosis requirement

- a. A DSMV official diagnosis of Autism or PDDNOS obtain from a credible psychiatrist trained in diagnosing Autism spectrum disorders
- b. A functional assessment from that same provider that suggest the candidate can meet the level of physical and mental functioning to benefit from a service dog

Provide statements of child's condition, difficulties, and needs from extended family members, one of the child's current service providers, associates or friends of the family, teacher or school official. A minimum of 3 concise statements from three different sources describing the child's major disabilities are required. One of which must come from the school that the child attends or will be attending.

We understand that contributions are not payment for a service dog, nor a guarantee our child will receive a service dog. While contributions may be given to RFI in the direction of a particular child, we understand those funds do not constitute a purchase. All the funds donated to the RFI organization are used to the best purpose determined by the Board of Directors.

If at any time during during team training, the two week transitional phase or the week of tether training, a RFI representative determines the caregiver, caregiver's partner or family is unsuitable to continue placement of a (service) dog, RFI may exercise its right as stated above to withdraw the service dog without monetary reimbursement to any party.

We understand that due to the increase in cases nationwide that the demand for service dogs for children with Autism far outweighs the supply. Not everyone that applies will be able to receive a service dog, and RFI will place dogs to the best of their ability with the applicants that show the greatest need of a trained service dog.

Official DSMV Diagnosis of child: _____

Name of Credible Psychiatrist trained in diagnosing autism who made the diagnosis:

_____ Phone Number: _____

Can RFI contact above: _____

Caregiver/ Parent _____ Date: _____

Caregiver/Parent _____ Date: _____
